

UETDRRRF06B Perform rescue from a live LV panel Half Day Course

Introduction

Ambition Training is a Registered Training Organisation (RTO code 41312) registered with the Australian Skills Quality Authority. Ambition Training is proud to offer training in Perform rescue from a live LV panel.

Course Description

This course provides learners with the skills and knowledge required to perform a rescue from a live LV pane. This course is designed to meet the requirements from the Transmission, Distribution and Rail Sector Training Package- UET12.

Learners will understand how to identify industry requirements, plan and prepare to perform rescue procedures from live LV panels. Additionally, learners will then be able to be able to complete the rescue procedure.

This course is essential for people who are required to perform live electrical work or act as a safety observer for electrical workers during the course of their employment.

This course prepares learners to undertake the assessment to obtain a Statement of Attainment in UETDRRRF06 Perform rescue from a live LV panel.

Mode of Delivery

Delivery of this course will be classroom based blended with some outdoor activities.

Assessment Summary

The learner will be assessed by demonstrating procedures applicable to this unit. They will also be required to answer a number of oral and written questions regarding their actions and theoretical application of knowledge. The assessment will also be part of a simulated activity set by the assessor.

This assessment must be conducted by an Ambition Training assessor and must be completed in the workplace or in another environment that accurately simulates the workplace. The assessor is to actively set tasks for the learner and must observe these tasks being performed.

To standardise the application of this assessment, the assessment tasks (required skills and knowledge) are based on those specified in the Unit of Competency, UETDRRRF06 Perform rescue from a live LV panel and those of the UET12 Training Package. The assessor will use an assessment instrument mapped accordingly

to the assessment requirements of this Unit of Competency. Assessors will apply an assessment procedure to ensure you are ready for the assessment and have the right resources and equipment to achieve the right standard.

Course Topics

- Prepare to perform rescue procedures from live LV panel
- Identifying work requirements including WHS legislation
- Risk assessment and hazard control strategies
- Carry out rescue from a live LV panel
